

A close-up photograph showing a person wearing blue nitrile gloves working on a white medical device. A white coil is visible, and a green label with handwritten text "Device stops like @ 87.5" is attached to it. A white label with the number "30-1023" is also visible on the device.

LOCAL TOUCH.  
GLOBAL REACH.  
REAL VALUE.

No matter the size of company – startup or established – we provide the same unmatched quality and attentive service to all of our valued customers. ■

## GUIDEWIRE DISPENSER COILS

Contech entered the medical device packaging industry in 1987 as a producer of dispenser coils and quickly changed the industry through our innovative automatic spiral winding technique, making the product more accurate and less expensive.

Our innovative solutions, large capacity, clean room assembly and close to 100% acceptance rate is what makes Contech different from the competition.

Contech's specialty areas include:

- Cardiovascular
- Angiography
- Veterinary
- PTCA
- Optical

At Contech, high quality and high quantity co-exist. Our experienced engineers, propriety machinery, quality management system and Class 8 clean rooms ensure that our clients are receiving the best product- every single time ■

# LOCAL TOUCH. GLOBAL REACH. REAL VALUE.

## VERTICAL GUIDEWIRE DISPENSERS

Contech can help you with your vertical and horizontal guidewire dispenser needs. Special order or unique characteristics? Not a problem. Our sales team and engineers have a solution.

## HORIZONTAL GUIDEWIRE DISPENSERS

Contech offers a variety of horizontal guidewire dispensers including oval, round, and various OD winds ranging anywhere from 4 to 20 inches. Unihoop and specialty horizontal dispensers are also available.

## EZ-LOAD®

EZ-LOAD® is a medical grade material that offers increased lubricity, reduced labor costs, and allows for faster wire loading for vascular procedures when using spiral wound guidewire dispensers.

### Advantages:

- Auto-load
- Efficient final assembly
- Reduced labor costs
- Reduced loss/rejections
- Longer and thinner wires
- Easier to insert into devices
